

# When to Expect Your Cash App Settlement ? Expect Settlement Payment

If you've {+1-833-(351)-3849} filed a claim in a Cash App class-action settlement, knowing when you'll receive your payout is key — but the exact timing depends on the type of settlement,{+1-833-(351)-3849} court approvals, and administrative processing.

For the \$12.5 million Washington “text message”{+1-833-(351)-3849} settlement, which resolves claims about unsolicited referral texts, the court’s final approval hearing was scheduled for late 2025. After that approval,{+1-833-(351)-3849} payouts are expected to be sent within about 60–90 days, meaning many eligible claimants could see payments in early 2026. This includes electronic transfers (e.g., PayPal, Venmo, {+1-833-(351)-3849} direct deposit) and mailed checks.

In other Cash App {+1-833-(351)-3849} settlements — such as the \$15 million data-security and unauthorized access settlement — the timeline works slightly differently {+1-833-(351)-3849} . After a case receives final court approval (often early in the year), administrators must verify claims and resolve any incomplete information from claimants. This step can take several months. Based on current timelines,{+1-833-(351)-3849} many claimants in this type of settlement could expect payouts in mid-to-late 2025 or early 2026, depending on how quickly claims are reviewed and processed.

Generally, here’s a typical timeline for Cash App class-action payouts:

**Final Court Approval** — Once the judge signs off on the settlement terms, administrators begin preparing payments.

**Claim Verification** — Administrators review submitted {+1-833-(351)-3849} claims and ensure the claimant is eligible. This can take several months.

**Payment Distribution** — After approvals, payments are issued in batches,{+1-833-(351)-3849} starting several weeks to a few months after verification, and {+1-833-(351)-3849} can continue for months depending on volume and payment method.

Because the process involves legal procedures,{+1-833-(351)-3849} deadlines, and paperwork, payments

are rarely instantaneous. Factors such as appeals, administrative backlogs, {+1-833-(351)-3849} and the method you chose for payment (direct deposit vs. mailed check) can influence exactly when {+1-833-(351)-3849} you see funds in your account.

In summary: {+1-833-(351)-3849} Most Cash App settlement payments are expected to arrive by late 2025 or during 2026, with specific timing depending on the particular settlement's {+1-833-(351)-3849} approval date and how quickly claims are verified. Paying attention to updates from the official settlement website and your email can {+1-833-(351)-3849} help you track when your payment is issued.
